

Environmental Law

As our understanding of the natural environment grows, so too do the demands on businesses to protect it.

MRM Konsult AB has the capability and the expertise to assist businesses with issues of Swedish environmental law. MRM Konsult AB can improve the efficiency of projects by providing advice on licence applications and best practice guidance, holding training courses on the Environmental Code, informing on recent changes in the law, and managing duty of care and waste audits according regulations set by SS-EN ISO 14001: 2004.
